

ABACUS MATH PROGRAM at UNIVERSAL PUBLIC SCHOOL

If you are searching for a course that could help you improve your mathematics skills and ability to perform calculations fluidly, then this is the one which will train your child to do so.

This course is provided with resources which are actually worksheets and the free Abacus Tool to give a better practice. This course will help children master the use of abacus and eventually train you to do calculations without any equipment (pen,paper,ABACUS) in real life problems.

Who this course is for:

- Beginners who want to be good at Mathematics
- If you want to do calculations fast
- If you want to save your precious time in competitive exams
- Beginners who wish to become a MATH WIZARD
